

BOND MEASURE #29-159

- Ballots are due by November 5, 2019.
- Bond Measure 29-159 is the proposed bond measure which, if passed, would fund the construction of new city facilities.
- If the bond passes, the total tax assessed would be \$0.9233. That would be an increase of \$0.50 per \$1,000 of assessed property values.

Property Assessed Value	Proposed Annual Property Tax Impact	Proposed Monthly Property Tax Impact
\$100,000	\$50.00	\$4.1667
\$200,000	\$100.00	\$8.3333
\$300,000	\$150.00	\$12.5000
\$400,000	\$200.00	\$16.6667

- If the measure passes, it would result in new city facilities being constructed. The new facilities would include an emergency hub to respond to local and regional emergencies, including natural or man-made disasters; a multi-purpose community meeting area that would be used for meetings conducted by the public, City Council meetings, and for Municipal Court; Police Department offices, including an emergency command center and rooms for records and evidence; and administrative space that would contain offices and related uses.
- If the measure does not pass, the additional tax assessment would not be made and there would not be revenue to construct these proposed new city facilities.
- If the measure passes, the City would use several existing revenues to put towards construction of the new city facilities to minimize the amount from a bond issue to complete the project. Funds from sale of timber, possible sale of the existing City Hall property and funds reserved in the City Budget for City Hall expansion would be used.
