

# PROPOSED NEW CITY FACILITIES – COMMUNITY MEETING HALL

- On October 13, 2017, the City organized a community workshop to provide an opportunity to community members to help the City plan for the future. At this workshop the community supported the development of a multi-use, multi-purpose space. Visit the city website to see the reports.
- If the bond passes,
  - the total tax assessed would be \$0.9233 per \$1,000 of assessed property values. That would be an increase of \$0.50 per \$1,000 of assessed property values;
  - the Community Meeting Hall would be used for meetings conducted by the public. The meeting hall would include a small coffee alcove to provide an opportunity to separate the preparation of food and beverages from the meeting area and a storage room to store tables and chairs to provide flexibility in the use of the room;
  - the proposed site for the Community Meeting Hall would have onsite parking for the public events held there;
  - the Community Meeting Hall would also function as the City Council Chambers for City Council Meetings and Municipal Court and related court activities;
  - public restrooms that comply with the federal Americans with Disabilities Act (ADA) would be constructed.
- Policy decisions regarding operational procedures would be made if the project moves forward and after considerable input and discussion from the community.
- If the bond does not pass, the tax assessment would not be made and the new facilities would not be constructed.
