Facebook:	Tillamook County Sheriff's Office
	EVCNB (Emergency Volunteer Corps of Nehalem Bay)
Twitter.....	TillamookCoEM
Web.....	www.weather.gov/portland

Distant Earthquake and Tsunami:

If you receive notification that a Distant Tsunami may affect the area,
Don't panic - just stay off the beach and listen for further instructions!

Local Earthquake and Tsunami:

If you feel the ground shaking, **Drop, Cover and Hold!** If you are near the beach or the bay, move inland to higher ground (Hwy 101 or 100 feet or more above high tide level) as soon as you are able to stay on your feet. **Do not wait for an official warning!**

If you are already at high ground, stay there.

A tsunami may arrive within minutes and damaging surges may continue for forty-eight hours or longer. Do not drive, as streets may be blocked by downed power lines, trees or other debris.

There are two primary Assembly Areas in Manzanita by Hwy 101 on Manzanita Ave. and on Necarney Road at the Transfer Station. These areas will not have supplies available for evacuees. Anyone evacuating to an Assembly Area should come with a GoBag equipped with three days of food, water, and medication.

Regional maps showing the tsunami evacuation zones and designated Assembly Areas are posted in your short-term rental.

Assembly Area near this location: _____

Now that you are prepared, get out there and have some fun!

Regional Protection resources gathered through the Emergency Volunteer Corps of Nehalem Bay I partnership with Nehalem Bay Fire and Rescue and for the City of Manzanita.
